

# HEALTH & SAFETY POLICY

MBD Contracting values a safe and healthy environment that stimulates and positively supports its workers to contribute to the operational effectiveness and business sustainability and ensures everyone goes home safely.

We are committed to:

- Complying with all legal and industry standards and obligations
- Establishing measurable objectives and providing a high standard of health and safety performance based on best practice principles for continual improvement
- Empowering workers to identify hazards and implement the necessary controls to reduce the risks that can impact health, safety and wellbeing
- Providing relevant training for workers and safety management appointments including annual safety awareness and induction training for all workers
- Encouraging our workers and their representatives to actively participate in continually improving health, safety and wellbeing throughout the business
- Supporting and promoting a strong, positive, interdependent safety culture that reports, learns and shares

A handwritten signature in blue ink that reads "Darren Richardson".
